

ABOUT

As a Native businessman and Indian law attorney, I focused on Alaska Native and Indian community development. My goal has been to help tribal organizations, businesses, and indigenous entrepreneurs make the most of their resources and capabilities. This can be done by developing local resources, by identifying new ventures and partners to help a community grow, and by leveraging special tribal rights and authority to expand services, revenue, employment, and management opportunities.

Throughout his career Bart helped Alaska and reservation-based businesses succeed returning substantial benefits to their communities, tribal members, shareholders and employees. Healthcare is one of the leading industries in the country and tribal healthcare offers a rich environment for tribes to improve their level of service and returns on investment. Bart is a licensed attorney, holds an MBA and has over 30 years of experience building Alaska Native and tribal businesses.
